19 July 2010

Dear Mr Beattie,

Thank you for your letter of 11 June to Ed Vaisey MP Minister for Culture Communications and the Creative Industries at the Department of Culture Media and Sports, suggesting a meeting to discuss interference to radio spectrum users from Powerline Technology. The matter raised falls within the remit of the Department for Business Innovation & Skills (BIS) and I have been asked to reply.

The Minister is unable to accept your offer of a meeting, as his diary is heavily committed. However, BIS officials would welcome the opportunity to meet you and discuss in more detail the points raised in your letter. They will contact you shortly to arrange a mutually convenient date.

Yours sincerely

Charles Tetteh
