

V.M.A.R.S

The Vintage & Military Amateur Radio Society

This year the VMARS report is rather brief but the main point is to stress that the provision for AM within the bandplans is maintained. This is important to us as we now have 476 members, a vast majority of which are active on AM. Rather than push for any additions we would be quite happy to keep what we have.

I have been requested though to raise the question as to why the IARUMS R1 co-ordinator keeps listing as intruders those stations operating on 80m in the Fixed, Mobile and Maritime Services when they are co-primary with the Amateur Services?

Best Regards - Ron Swinburne VMARS Rep for SF Forum, Oct-2016
