Dear [REDACTED]

50 MHz OPERATION

There has recently been some confusion, especially in Wales, over the term "Band I transmissions".

It may be helpful if I point out that the only Channel in Band I affected by 50 MHz operation is Channel 2, and that outside of UK Broadcasting hours refers specifically to Band I Channel 2 transmissions.

It has been agreed with the BBC that operation may take place between 2330 hours and 0830 hours provided that the local Band I Channel 2 transmitter is not in operation during that period. Under no circumstances is operation under the terms of your 50 MHz permit permitted outside of the times stated above.

Yours sincerely

G L SOPER
