Dear

50 MHz OPERATION

I have pleasure to enclose a letter varying the terms, provisions and limitations of your amateur licence in respect of operation in the 50-52 MHz band.

As one of the successful applicants to carry out propagation experiments in this band, I am bound to emphasise that any case of harmful interference being caused to other services operating in the band may lead to the revocation of this privilege. This will certainly be the case if amateur operation is monitored during broadcasting hours. Use of the band is only permitted at your station address.

In view of the very high demand among amateurs for this privilege, if for any reason you are unable to continue operation, you are requested to notify this office in writing.

As you know, the Radio Society of Great Britain has sought permission to publish information on successful applicants and they have also expressed an interest in seeking a preliminary report of your results; I understand that they will approach you separately about this.

Yours sincerely

G L SOPER
