Dear Mr ,

50MHz  
-----

The Society has started to receive feedback from some 50MHz permit-holders, which has been most encouraging. We look forward to your report as soon as possible if you have not yet become operational.

There are several items of news:

- a) Further clarifications from the Home Office on operational times is that operation must only be between 2330 and 0830 (local time) provided that your local service band 1, channel 2 transmitter is not operational. The latter should ideally be established by monitoring the broadcast.
- b) At present the Home Office has stipulated that crossband contacts may only be permitted with Class A licensees. The anomalies of this situation are currently under discussion with the Home Office.
- c) The current list of permit holders appears overleaf. It would be inadvisable to make contact with any other UK stations as this could easily jeopardise the entire basis for these special permits. As the Society is most conscious of the delicate nature of the negotiations which led to these special permits, feedback on any type of illegal activity would be appreciated. This could be very much in our own interests.  
As with other aspects of this work, your contact is Keith Fisher, G3WSN, the Society's VHF Manager.
- d) To assist operations, the Society's VHF Committee has drafted a 50MHz bandplan. This will be discussed at a meeting of IARU Region 1 VHF Managers, being held this month, following which it will be promulgated as soon as possible.

Continuation

Again, the Society would welcome reports from you on any matter related to these special operations, either to G3WSN or GBVR.

With thanks and 73.

Yours sincerely,

David A. Evans, G3OUF  
General Manager/Secretary

(on behalf of Keith Fisher, G3WSN, VHF Manager)

### 50MHz Licence holders:
