Dear Mr [REDACTED]

50 MHz OPERATION

I have pleasure to enclose a letter varying the terms, provisions and limitations of your amateur licence in respect of operation in the 50 - 52 MHz band.

As one of the successful applicants to carry out propagation experiments in this band, I am bound to emphasise that any case of harmful interference being caused to other services operating in the band may lead to the revocation of this privilege. This will certainly be the case if amateur operation is monitored during broadcasting hours. Use of the band is only permitted at your station address.

In view of the very high demand among amateurs for this privilege, if for any reason you are unable to continue operation, you are requested to notify this office in writing.

As you know, the Radio Society of Great Britain has sought permission to publish information on successful applicants and they have also expressed an interest in seeking a preliminary report of your results; I understand that they will approach you separately about this.

Yours sincerely

P FEENEY

Dear Sir

1. This letter varies the terms, provisions and limitations of your Amateur Licence G [redacted] to allow you to carry out propagation experiments in the 50 - 52 MHz band at your station address only; mobile working and use at a temporary location are strictly forbidden.
2. Interference must not be caused to other services and your station has no protection against other services.
3. The power and classes of emission shall be as for band 70.025 - 70.5 MHz.
4. You may only operate your station in the 50 - 52 MHz band outside UK television broadcasting hours.
5. These variations are given pursuant to Section 1(4) of the Wireless Telegraphy Act 1949 and clause 12 of the said Amateur Licence. They shall take effect forthwith, and remain in force until further notice, provided that if at any time you no longer require this facility you notify the issuing office in writing.

Our ref RD/CH/434

Date 20 December 1985

Dear [REDACTED]

1 Our records show that you were issued with a notice of variation to your Amateur Licence, permitting you to carry out propagation experiments in the 50-52 MHz band.

2 As from 1 February 1986 all current Amateur Licences (A) and (B) are being varied by Gazette Notice to permit Class A Licensees to transmit on 50.000 - 50.500 MHz. Initially only Class A Licensees will be allowed to transmit in this frequency band. At the same time all existing permits to use the 50-52 MHz band are being withdrawn.

3 This notice is to inform you that the aforesaid notice of variation to your licence is withdrawn as from 1 February 1986, and is given pursuant to Section 1(4) of the Wireless Telegraphy Act 1949 and clause 12 of your Amateur Licence.

For the Secretary of State for Trade and Industry
