

2. In Clause 2 of Licence B, the following words shall be substituted for sub-clause (b):

“The Station shall be used only within those frequency bands which appear between the frequencies 144.00 MHz and 250,000 MHz in the first column of the Schedule subject to those limitations named in the second column of the Schedule and shall be used only with a power not exceeding that specified in the fourth column of the Schedule and shall use only those types of transmission named in the fifth column of the Schedule.”

3. From 1st February 1986 the Schedule to both Licence A and Licence B shall be varied to allow the following insertion to be made between those entries, in respect of the frequency band 28,000 MH to 29,700 MHz, as to the status of allocation to the Amateur Service and to the Amateur Satellite Service, the maximum power and the permitted types of transmission, and those said entries in respect of the frequency band 70.025 MHz to 70.500 MHz. This means that initially only Class A licencees will be able to transmit on 50–50.500 MHz.

Status of allocations in the UK to:

<i>Frequency bands in MHz</i>	<i>The Amateur Service</i>	<i>The Amateur Satellite Service</i>	<i>Maximum power</i>		<i>Permitted types of transmission</i>
			<i>Carrier</i>	<i>PEP</i>	
50.000–50.500	Primary Subject to not causing interference to other administrations. Antennas limited to 20 metres above ground level, with horizontal polarisation only. No mobile, portable or temporary premises operation.	No allocation	14dBW erp	20dBW erp	Morse Telephony RTTY Data Facsimile SSTV

Clause 2 shall have effect accordingly.

20th December 1985.

M. V. Coolican, on behalf of the Secretary of State for Trade and Industry
