

ETCC Spectrum Forum Report

Summary

There has been a steady flow of new applications for repeaters and gateways and renewals continued at a steady pace throughout the year.

During 2023 the ETCC regions and responsibilities have been slightly re-jigged to even the workload of each manager. We have also strengthened the team in the Data and web service areas in preparation for the forthcoming licensing changes.

At the moment we are waiting for the dust to settle and final Ofcom guidance as to our future responsibilities.

My thanks again to the ETCC regional and specialist managers for their hard work throughout the year.

Andrew Barrett G8DOR
ETCC Chairman
